

All in the Game

Thomas Samuel Orr

Sexual addict at the swimming pool Growing pains of a teenage girl Three young boys are closing in for the kill
It's all in the game It's all in the game Love 'em and leave 'em But don't remember their name It's all in the
game It's all in the game Love 'em and leave 'em But don't remember their name Hotshot hustler she gives it
away Right in the middle of the swimming pool She fell in love with her junior high school teacher It's all in the
game It's all in the game Love 'em and leave 'em But don't remember their name It's all in the game It's all in
the game Love 'em and leave 'em But don't remember their name She's hanging out at the pool all summer
She's willing to give you a helping hand She's bringing good fun for everyone Oh yeah Go ahead and use her
everyday Her parents wouldn't give a damn anyway They're too old to understand how she plays It's all in the
game It's All in the game Love 'em and leave 'em But don't remember their name It's all in the game It's all in
the game Love 'em and leave 'em But don't remember their name
