

Wrong One (feat. Royce da 5'9)

Grafh

[Sample]

"And he smiles"[Intro: Grafh]

[?]

You know bad man don't play around

This in a bloodclot playground

See

Aye[Hook: Grafh]

Ooh, I'm the wrong one to play with

I'm the wrong one to play with, ooh

I'm the wrong one to play with

I came to outwork you

Your work ethic is too basic

You know bad man no player

Me, I'm the wrong one to play with

I'm the wrong one to play with, ooh[Verse 1: Grafh]

Young king nigga crowned pharaoh

Hemlock spread faster than sound travels

Look under my nails and they found gravel

They say where no man's gone, I found shadows

Ten toes down, my nigga

Boot heel to the ground, my nigga

I'm Mayweather, but I'm way better

I size you up, then choke you with the tape measure

My hands full of germs from applying straight pressure

You got a rash on a fake leather, I'm strapped and I spray pepper

The barrel goes 'round and 'round like a chain letter

My powder can change weather, that's snow

I rep my city a lot, I light my blunt with the torch that the Statue of Liberty got

My nigga, we bump Biggie and LOX

Diddy with the diddy-bop

My dope's the color of my Henny shot, let the semi pop

How you tryna block bullets

Looking like you're tryna do the Milly Rock?

Can I get the same bread Diddy got

Without getting the death threats that got Biggie shot? Look

Word to my nigga Chinx Drugz

This the game of thrones and it's power in king's blood, there's cowards who drink blood

On the hour to think love, we just think slugs

Think ski masks and think gloves, we [?]

We think Crips, we think Bloods
We don't think love, we think shit, we think mud off the rip
I swing uwops, they gave flu shots
Bang a few and knock your brain to your tube socks
'Cause the lames make the game too pop
Call Marty McFly from Back of the Future to save 2Pac
Who saving the game, who not?
Who want to tangle, my heart is the jangle
Your heart is made of chardonnay, one small parfait, and a large mango
A walking tornado, I'm armed with a volcano, my vomit is all drano
But you're listening wrong, I've been spitting the bomb
But you was busy hitting the Quan, I'm busy whipping with the wand
Let the [?] rock spread
You sold your soul and already got bread
These industry niggas think I already dropped dead
And I appeared out of nowhere like Fetty Wap's dreads
But I'm like[Hook: Grafh]
Ooh, I'm the wrong one to play with
I'm the wrong one to play with, ooh
I'm the wrong one to play with
I came to outwork you
Your work ethic is too basic
You know bad man no player
Me, I'm the wrong one to play with
I'm the wrong one to play with, ooh[Verse 2: Royce Da 5'9"]
Aside from being deadly
I work like I got more jobs than the Hedleys
In living color, it's millions of us
Weighing from AM to PM like Damon and Keenen
Playing arenas like Ringling Brothers
But ain't no clown in the circus acting
I'm just surgical with the ratchet tryna get perfect as I murder practice
Every noun, a knife, a verb, a cactus
I tuck these flows away in my tuxedos like urban magic
I'm on point, but I stand taller than Earvin Magic
I'm on most as sharp as my [?]
I'm cutting up like carpenter razors
Flipping as if I'm the product of dirty mattresses, revolvers, and [?] with lasers
I partake in godly behavior
If I decide not to spray the party, then by golly, that's a party favor
I'm the wrong one to play with
In due time, you'll find out who's behind these bars that you don't even want a day with
You could find me in the new wheels, the latest
Doing deals, I know it hurts to have to do deals with Avis
Y'all like me is in y'all dreams, y'all car swiping

I'm writing, we're into different rental car schemes
I went inside a synagogue clean
Left with a dirty mind, back with a battery and energized dreams
Y'all on a red eye, I'm on a jet trying to guess how long I've been awake
I think I need a hit of Visine[Hook: Grafh]
Ooh, I'm the wrong one to play with
I'm the wrong one to play with, ooh
I'm the wrong one to play with
I came to outwork you
Your work ethic is too basic
You know bad man no player
Me, I'm the wrong one to play with
I'm the wrong one to play with, ooh
