

Anti-Social Media

Will Jay

It's so dumb how we're wrapped up in the smart phone
Living through the minutes of a youtube video
We're letting kids trade ipads for their childhood
As soon as we're online we shut the world out
Brag about our lives to the friends that never come around
Who needs to see my face when I've got Facebook?
So lets give some love, not just our likes
Look up and into each others eyes
'Cause this ain't right
We should disconnect from the internet
'Cause I'm tired of anti-social media
I don't want to share if nobody's there
'Cause I'm tired of anti-social media
I'm tired of anti-social media
It's for the birds yet we never stop tweeting
Ain't no fun if we're not infront of a computer screen
Let's go outside real life don't need a filter
We're just slaves to our cellular providers
What happened to good old fashioned talking to one another?
Can't say hello if it uses up my data
Snapchats and selfies, don't waste your time
I wanna see you with my own eyes
'Cause this ain't right
We should disconnect from the internet
'Cause I'm tired out anti-social media
I don't want to share if nobody's there
'Cause I'm tired of anti-social media
I'm tired of anti-social media
We can't pay attention for more than six seconds
Yeah we need to shut it down
Let's control or delete all this technogy and enjoy right now
We should disconnect from the internet
'Cause I'm tired of anti-social media
I don't want to share if nobody's there
'Cause I'm tired of anti-social media
So tired of anti-socail media
We should disconnect from the internet
'Cause I'm tired of anti-social media
I don't want to share if nobody's there

'Cause I'm tired of anti-social media
I'm tired of anti-social media
I'm tired of anti-social media
