

Protector

Atomkraft

I came from far beyond the time
this is my manor
I'm reaching for the crown
and now it shall be mine
this is my realm
from far beyond the time
I've been waiting for revenge
try to defeat me
I will break through your defense
will get inside your mind
I will enlight you
free you from the blind
Protector
will terminate the pain
I will enlight your
sick and wicked brains
This is my requiem of revenge
This is my rancour
I creep inside your mind
into your very soul
I have the power
I am in control
now I'm stronger than before
landed to retake the crown
your conquerer comes ashore
...I creep inside
your very mind
into your soul I'm in control
...I will get inside your mind
I will free you from the blind
I will terminate the pain
enlight your wicked brains
