

Hear Your Heart

[William Fitzsimmons](#)

I can hear your heart from here
Though you've long been in the ground
And through earth and 60 years
It's a soft, familiar sound And I never saw your face
Before Jesus took my eyes
And I don't know what I'd say
If I'd found you still alive I can hear your heart from here
I can hear your heart from here
And it's so hard to forgive
Though I know why it was done
And I know it broke your heart
When they took away your son
I can hear your heart from here
