

I Want It All

Down With Webster

Advisory - the following lyrics contain explicit language:

(Verse 1):

I came to get it all

I came to get it all

Put your hands up

Get your ass up off the wall

Fuck if I'm leaving with half

Fuck if I'm leaving with half

I'm putting everything in

Now I want everything back

Doors open like a centerfold

On stage feeling unfuckwithable

And no two shows are ever identical

So every time you see me flow I'm at my pinnacle

And I'm aimin' for the nosebleeds

Everyone who knows me

Holdin' up the dub into the air like a trophy

You're giving me a hand to a hater, that's a bitch slap

My time is the present, I'm just taking off the gift wrap(Chorus):

Well I've seen, exactly what you want me to be

But that don't mean nothin' to me, at all, I want it all

I've got dreams, larger then you'd ever believe

But I don't want nothing for free, at all, I want it all(Verse 2):

When they tell you slow down, when you goin' this crazy

Wake up and smell the roses, before you pushin' daisies

Well I'mma keep pushin' like the day my momma made me

So life is but a dream, and no one better wake me

Goin hard with it, gettin' blues, steal swagger

Like an advil, went and did it with a hammer

Rollin' like a camera, focused like some film

And I'm ready for my close-up in that Coupe De Ville

But you can have your coupe back, I'mma pontoon that

Cadernera jazz with the fan blowin' fruit back

Feelin I'mma booth that, winner on the two track
And when it's my time to rain, I monsoon that(Chorus):
Well I've seen, exactly what you want me to be
But that don't mean nothin' to me, at all, I want it all
I've got dreams, larger then you'd ever believe
But I don't want nothing for free, at all, I want it all(Verse 3):
I just can't wait
You bring the liquor I'm on a chase
And I'mma keep running until the race is done
And the race ain't won
But I want it so bad that I can taste this one
Go hate, I know you're only happy when it rains
But I won't be happy to play the game, I'm done
It's the same old song and the same fire burning yea the flames still strong(Chorus):
Well I've seen, exactly what you want me to be
But that don't mean nothin' to me, at all, I want it all
I've got dreams, larger then you'd ever believe
But I don't want nothing for free, at all, I want it allOhhhh-whoa-ohh,
I've got dreams
Ohhhh-whoa-ohh
