

# Hello

Nikki Flores

you bat your eyes  
i wanna hide  
i don't know why  
you make me so shy  
i'm usually not  
but you've got me stuck  
and I've had enough  
so it's time to try  
to tell you how i feel  
though i'm shaking all inside  
gonna try to overcome my fears  
cause I've got to make you mine

hello

you don't know me  
but my world is lonely  
without you by my side

hello

i hope that you hear me  
cause all that i'm missing is you in my life

can you hear me say hello  
can you hear me say hello  
can you hear me say hello

letters i wrote

ten thousand notes  
the world is my throat

won't get to you

any other way

unless i learn to say

what i mean to say

so it's time to try

to tell you how i feel

though i'm shaking all inside  
gonna try to overcome my fears  
cause I've got to make you mine

hello

you don't know me  
but my world is lonely  
without you by my side

hello

i hope that you hear me  
cause all that i'm missing is you in my life  
can you hear me say hello  
can you hear me say hello  
can you hear me say hello  
hello

you don't know me  
but my world is lonely  
without you by my side  
hello

i hope that you hear me  
cause all that i'm missing is you in my life  
can you hear me say hello  
can you hear me say hello  
can you hear me say hello
