

# Blue Diamonds

## Rusted Root

And we go out on the world tonight  
With our blue diamonds  
That were once our fears  
Pressing down on the town  
And we go out my love holding all our bets  
Oh my lady resurrect this breath  
On this hour of the night  
We'll make it love, we'll make it love  
'Cause I found you now  
And forever I won't waste this breath  
Let time be by our side  
It's now and never I won't waste this breath  
Now don't you wait I feel it in my hurt  
Oh my lady you're the woman I search  
To roll my heart  
Roll my heart this way, hey, hey  
'Cause I found you now  
And forever I won't waste this breath

Let time be by our side  
It's now and never I won't waste this breath  
I remember a time, a little less tame  
You rolled my heart home this way, this way  
On the world tonight  
With our blue diamonds  
That were once our fears  
Pressing down on the town  
And we go out my love holding all our bets  
Oh my lady resurrect this breath  
On this hour of the night  
We'll make it love, we'll make it love  
'Cause I found you now  
And forever I won't waste this breath  
Let time be by our side  
It's now and never I won't waste this breath
