Home Is Where The Heart Is

Mcfly

I'm a lover not a fighter
Hold me close and I'll take you higher
Than you've ever beenRaise your hands and lay down your weapons
We could turn this around
In seconds flat if you believeHome is where the heart is
It's where we started
Where we belongHome is where the heart is
It's where we started
Where we belongWell, light a fire and write a sonnet
Pin all your hopes and dreams upon it now
And come and sing with usCalling out to your children's children
Let there be love and let them scream it loud
Before we bite the dustSo come on
Home is where the heart is
It's where we started
Where we belongOh we're singing
Home is where the heart is
It's where we started
Where we belongIn these troubled days of anger
We're afraid of every stranger
But today were changing history
It's okay, just sing it with meNow's your chance
Think of your lovers
We are all sisters and brothersNow's your chance
Think of your lovers
We are all sisters and brothersHome is where the heart is
It's where we started
Where we belongHome is where the heart is
It's where we started
Where we belongHome is where the heart is
It's where we started
Where we belongHome is where the heart is
It's where we started
Where we belongHome is where the heart is
It's where we started
Where we belong
