

That's Love

Jamie McDell

Stuck right in this mess
Acting like love's a contest
Feeling so confused
I wish I could stop regretting you

[Chorus]
But that's love
And so much that can't be changed
That's us
Wish I could throw it all away
But that's love
And it's all worth a little pain
To see your face again

How you watched me
Like we were living in a dream
And that last goodbye
Is worth enough to cry

[Chorus]
But that's love
And so much that can't be changed
That's us
Wish I could throw it all away
But that's love
And it's all worth a little pain
To see your face again

The sun is rising
And I'm still trying now
To live my own life
But I'm still learning how

[Chorus]
But that's love
And so much that can't be changed
That's us
Wish I could throw it all away
But that's love
And it's all worth a little pain

To see your face again

Yeah, yeah, yeah

To see your face again

Yeah, yeah, yeah

To see your face again
