

# Don't Go Breaking My Heart

## Agnes

On and on (and on)  
This love I feel for you goes on and on (and on)  
This world can be a scary place  
And so much love goes to waste  
One moment everything is clear  
The next it all could dissappear  
We need something to hold on to  
I wanna be that thing for you  
'Cause you're not in this all alone  
Your heart has finally found a home

Chorus:

On and on (and on)  
This love I feel for you goes on and on (and on)  
It's something you can't lose  
You're gonna find  
This heart of mine  
We'll stand the test of time  
(oh) On and on (and on)  
Can't you see this is where you belong  
I've got so much to give  
Let down your guard  
And let these arms  
Shelter you tonight  
Words can be so hard to trust  
They made a fool of all of us  
Let your emotions be your guide  
And go with what you feel inside  
I know that what I feel is deep  
And when I play, I play for keeps  
I know that you've been hurt so bad  
But this is something meant to last

Chorus:

On and on (and on)  
This love I feel for you goes on and on (and on)  
It's something you can't lose  
You're gonna find  
This heart of mine  
We'll stand the test of time

(oh) On and on (and on)  
Can't you see this is where you belong  
I've got so much to give  
Let down your guard  
And let these arms  
Shelter you tonight  
I can feel us moving  
Closer by the minute  
This is so amazing  
Have a little faith in  
Let me lead the way  
I can promise you that...

Chorus:

On and on (and on)  
This love I feel for you goes on and on (and on)  
It's something you can't lose  
You're gonna find  
This heart of mine  
We'll stand the test of time

(oh) On and on  
Can't you see this is where you belong  
I've got so much to give  
Let down your guard  
And let these arms  
Shelter you tonight  
On and on (and on)  
This love I feel for you goes on and on (and on)  
I've got so much to give  
Let down your guard  
And let these arms  
Shelter you tonight
