

# Love Is What You Make of It

## Maude

Let's take a walk, crack a smile  
Maybe do something we haven't done in a while  
Do a dance, sing a song  
Probably set the bar for what we're doing later on  
So come on, come on love hold my hand  
The world's givin' us a chance  
I say the world's givin' us our chance, oh oh  
Hey!'Cause love is what we make of it  
It's a small event if you're fakin' it  
I can make a promise that the glass will stay half full  
Together we're a beautiful soul  
'Cause I could never do it on my own  
I could never do it alone  
Take a left, avoid the cold  
Two traffic lights and then we're home  
Open the door, step inside  
Look into my eyes and let your heart beat its eyes  
So come on, come on love hold my hand  
Hold on to this love like you know we can  
Look into my eyes and you'll understand  
Look into my eyes and hold my hand!  
'Cause love is what we make of it  
It's a small event if you're fakin' it  
I can make a promise that the glass will stay half full  
Together we're a beautiful soul  
'Cause I could never do it on my own  
I could never do it alone  
If I can fight the evil side  
Like a superhero savin' lives  
I can make a promise that our dreams will come to glow  
Together we're a beautiful soul  
'Cause I could never do it on my own  
I could never ever do it without you  
Without you, without you  
I could never ever do it without you  
Without you, without you  
Hey yeah!'Cause love is what we make of it (oh, oh)  
It's a small event if you're fakin' it  
I can make a promise that the glass will stay half full (half full)  
Together we're a beautiful soul  
'Cause I could never do it on my own (no no, no no)  
I could never do it alone  
If I can fight the evil side  
Like a superhero savin' lives  
I can make a promise that our dreams will come to glow  
Together we're a beautiful soul  
'Cause I could never do it on my own

I could never do it alone! I, I, I could never do it alone  
You and I make such a beautiful soul  
I, I, I could never do it alone  
I, I, I could never do it alone (oh, alone) I, I, I could never do it alone  
You and I make such a beautiful soul (oh, whoa)  
I, I, I could never do it alone  
I, I, I could never do it alone
