Suicide and Mania

Primal Fear

I see their faces
They're hunting me
It's like a bullet
Flying over meDespite the time they waste on me
There's no way out, no breaking free
I chase the shadow on the wall
I am a prisoner of myself
Just look at meNo doctor, no healing
There's only disbelieving
The naked truth no fantasy
No doctor, no healing
The poison gas I'm breathing
No other choice than suicide and maniaToo many changes
Have ripped out my heart
Edge of insanity
I am the evil partThis must be real no fantasy
They're watching and destroying me
I'll crash my car against a wall
A silent scream, a final call
A funeral marchNo doctor, no healing
There's only disbelieving
The naked truth no fantasy
No doctor, no healing
The poison gas I'm breathing
No other choice than suicide and mania
