

# Suicide and Mania

## Primal Fear

I see their faces  
They're hunting me  
It's like a bullet  
Flying over me Despite the time they waste on me  
There's no way out, no breaking free  
I chase the shadow on the wall  
I am a prisoner of myself  
Just look at me No doctor, no healing  
There's only disbelieving  
The naked truth no fantasy  
No doctor, no healing  
The poison gas I'm breathing  
No other choice than suicide and mania Too many changes  
Have ripped out my heart  
Edge of insanity  
I am the evil part This must be real no fantasy  
They're watching and destroying me  
I'll crash my car against a wall  
A silent scream, a final call  
A funeral march No doctor, no healing  
There's only disbelieving  
The naked truth no fantasy  
No doctor, no healing  
The poison gas I'm breathing  
No other choice than suicide and mania
