Clear the Lane

Rage Against the Machine

Hey, yo, let me be front

This is real and not a stunt

I'm comin' to the forefront

Shovel for the rapper and clear the lane

'Cos this jam is like a tomahawk chopTeach ya, I'll never stop droppin' topics

Vocal power? Yes, I got it

On Central but they're tryin' to clamp it down

Flag was wavin' the wrong way, so I shot it downGet down and at the same time

Come up, down, this is a crime that shut us up

I don't give a fuck

'Cos the words and the thoughts still hit

And like I said, it's not a skitJump another hit, yeah

Ya know I don't need a drum kit

Make 'em say, Aww, shit

The rebellion is true and legitDown, get down and clear the lane

Down, get down and clear the lane

Down, get down and clear the lane

Down, get down, yeahThe rebel, you'll never disable

Defiance with the cards upon the table

Pulling cards, keep the governments in check

Yo, I think we need a new deckNever could trust a Philla busta

The mic is like a fist and it'll bust ya

With words cold hittin' with the underground

And now you're checkin' out the new soundLive hit, a live pop, live rock

And ya don't stop

It goes on and on and on

Who's a threat? C'mon, the war is onDown, get down and clear the lane

Down, get down and clear the lane

Down, get down and clear the lane

Down, get down, clear the laneFace start droppin', our words are never safe

Fightin' with your [Incomprehensible]

'Til I'm where I gotta be

I challenge, don't sweat it, now don't you forget it

Check me? What? Wait, you better slow downRealize I can't confine my rhyme to a beat

I need cash so when I'm cool, there's never ever weak

Places are fluid and diluted and complete

Check me once, calm down and take a seatStrip the chains, the freedom's there

But then it's goneClear the lane

Clear the lane

Clear the lane
Clear the laneDefiance rippin' up the south set
Every time I'm grippin' the mic, it is a sound threat
Resist against the suckers that bring the bass in
Timmy C, bring that bass inClear the lane

Clear the lane Clear the lane Clear the lane
