Falling Forever

Paradise Lost

Falling foreverSickened by the feelings within
Laughing at my pain, my pain
Forget the lies, live the realityEager, waiting for a chance
To indulge this sinful perversion
I have grown weak nowGod may forgive and save
Our precious souls
Lift the curse from usForget the lies, live the realityEmbrace all distorted thoughts
Indoctrinating sins
In this our earth the love is lost, disruption beginsEmbrace all distorted thoughts
Indoctrinating sins
In this our earth the love is lost, disruption beginsMadness, soils of the earth
Greet our cries falling forever
