

# Way Back

[Amber Mark](#)

I was broken, I was acting up  
For good reason, lost all of my love  
May still be aching but I see the sun come up  
Days overtaking and I feel I've overcome I've found my way back  
I've found my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back I been coping, it's been really rough  
And I'm quoting, I have had enough  
May still be aching but I see the sun come up  
Days overtaking and I feel I've overcome  
I've found my way back  
I've found my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back  
Way back, my way back
