

# Call The Police

## Twista

[Chorus - Ray J] If we keep bumpin up against this wall  
They gon' call the police (woo ooh woo ooh)  
And if we keep makin all this noise  
They gon' call the police (woo ooh woo ooh)  
Don't wake up my neighbors  
People got to go to work (woo ooh woo ooh)  
And if we keep makin all this noise  
They gon' call the police (woo ooh woo ooh)  
[Twista] Hit it up against the wall like a beast  
Hit it out in the hall like freak  
How we're doing what we're doing  
I don't see how nobody up in the building  
Gettin no sleep  
How we get it in, we gonna get put out  
For steady makin noise bumpin up against the headboard  
And they be hatin somebody gon' come and beat on the door  
"get off of the landlord"  
I'm a freak up in the sheets  
Especially when I'll be fuckin to the beat  
The neighbors said if we keep it up  
They gonna have to call the police  
And we're gonna be up in the streets (woo ooh woo ooh)  
Cause I act like a fool  
And my chick knows she gets so pumped when she bump  
Like a thump in a trunk on the couch where she hump but instead  
It goes bumpity bump  
We're about to get put out this hotel if you keep on screaming  
We're about to get put out the crib if you keep on screaming  
Girl your love is terrific  
And Whenever I hit it  
We never know how loud we was  
We makin too much noise turn the radio up  
  
and put a sock in yo mouth because...  
[Chorus] Imma hit it like (uh)  
We gon' do it like (uh)  
We gon' do it like (uh)  
Baby turn around  
On the bed like (uh)

On the couch like (uh)  
On the floor like (uh)  
Steady make a sigh...  
Got lil momma sounding  
The way she be doin when she play with all them toys  
We better stop all this noise  
They gon' mess around  
And call them boys (woo ooh woo ooh)  
I get it bumpin in the house  
And we makin everybody in they rooms sick  
And all of my neighbors be trippin  
And beatin on the ceiling with they're broomstick  
And if we decide to sip a little liquor  
Let me go and see where I can find some from  
The damage Imma do when I get back is a guarantee  
Somebody call 911  
All the freaky noise that you make it be makin  
me want you to get up  
Let me put this pillowcase in yo face  
Before you wake somebodies kids up  
Even though I pay the rent for the crib  
I don't really wanna cause a riot because  
They gon' call it domestic violence  
So we got to do it in silence because...  
[Chorus]
