## Matorral

Above the clouds  
We flew to heaven  
Through the eye of storm  
and into to the light  
I see you  
You're everywhere I go  
In everything I do  
I dreamed a thousand years

Just to be here where everything is right  
Scrape those screamless skies  
Defy the limits and fly  
I see you  
You're everywhere I go  
In everything I do  
I see you  
You're everywhere I go  
In everything I do
