

People

Action Pact

So what's the price fortune and fame?
Friendship going down the drain
What becomes of those you meet
Stepping stones beneath your feet You've got to reach the highest peak
Ambition isn't for the weak
Determined so you are inside
But who are those you push aside? People, people, people Something just won't let you stop
Till you make it to the top
When you're there you'll soon forget
All the kindness you once met So don't forget as you grow older
Keep on looking over your shoulder
Bitterness is all you'll find
Don't tread on those you leave behind People, people, people
