## Kathryn Grayson, Howard Keel

Stumbling, falling, crawling  
trying to reach for you  
first time I missed you  
made a turn and lost my shoe  
oh my dear street light  
you keep me warm at nightmy wonder wonder wonder shining star  
wunderbar wonder shining starHave you ever asked me  
where I am coming from  
have I ever told you  
why I am so alone  
oh my compassionate light  
talk to me when I am tightmy wonder wonder wonder shining star  
wunderbar wonder shining starRemember our first aquitance  
at your iron post  
sat in my car when  
all at once my life got lost  
I keep a firm hold on you  
until the morning bluemymy wonder wonder wonder shining star  
wunderbar wonder shining starGlittering snowflakes  
under your golden glow  
wrap myself up well  
in my woolen coat  
I am lying at your feet  
sweet guardian over my sleepmy wonder wonder wonder shining star  
wunderbar wonder shining star
