

Let It Ride

Sammie

Man shorty, after all this time I thought you was true
Thought you was different
I guess a lie don't care who tell it, listen I thought we was the same, baby, had the same mind
You and me in game, baby at the same time
Took a while to love you but I had to make you mine
Glad I found someone that's right But then I started hearin' rumors
And I didn't like their sound
Said you had another life way cross town
Put a lot of honesty and trust into you
Without really thinkin' bout all girls I lied to Said a lie, I don't care who tell it, baby
All this time I thought you were my lady
Try to be without you but it drives me crazy
There's only thing to do I gotta let it ride, let it ride, let it ride
Oh, oh, oh, I gotta let it ride, let it ride
That's the only thing that I can do Maybe I jumped in too fast
I should've took my time
But I was so excited that you wanted to be mine Girl, I was straight with you
I didn't play no games, stayed true
Even when my boys thought I was a fool Said a lie, I don't care who tell it, baby
All this time I thought you were my lady
I try to be without you but it drives me crazy
There's only thing to do I gotta let it ride, let it ride, let it ride
Oh, oh, oh I gotta let it ride, let it ride
That's the only thing that I can do I gotta let it ride, let it ride, let it ride
Oh, oh, oh, I gotta let it ride, let it ride
That's the only thing that I can do Said a lie, I don't care who tell it, baby
All this time I thought you were my lady
Try to be without you but it drives me crazy
There's only thing to do Said I gotta let it ride, let it ride
Oh, oh, oh, I gotta let it ride
Oh, oh, oh, that's the only thing that I can do, ride
