I Will Follow

Kim Richey

I saw you in a dream I had
Doing dishes at the laundromat
And you smiled at me
You said, "Let's hide and seek
I'm gonna count till three"
Where did you go?One step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow, I will followI saw you on a downtown street
Eating peaches in an apple tree
You said, "Take my hand
And we'll be a marching band
They'll love us in Japan"
Where did you go?One step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow, I will followOne step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will followOne step forward, two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow, I will follow
