Annihilator

Annihilator

The storm is coming closer
Spreading out, infecting like disease, like a disease
All life below
Is crushed under the power of machineAnnihilator, annihilator
(This machine)
Annihilator, annihilator
(This machine, rumble)Lighting rips the sky at night
His power paints the city blood red, blood red
Nowhere to run, nowhere to hide
Don't look behind 'cause you're deadAnnihilator, annihilator
(You're dead)
Annihilator, annihilator
(Now you're dead)You're trapped alone
Filled with fear
There's no one to help youThe storm is coming closer
Spreading out, infecting like disease, like a disease
All life below
Is crushed under the power of machineAnnihilator, annihilator
(This machine)
Annihilator, annihilator
(This machine, rumble)Annihilator, annihilator
Annihilator, annihilator
Annihilator, annihilator
...
