Perfect Day

Dj Antoine

I wake up in the morning, no worries in the sky
We caught it all like, still no clouds up in the sky
My friends are all around me, were surfin in the sun
Lets get this party started, were gonna have some funThis is just a perfect day,
Were living like theres no tomorrow
This is just a perfect day,
Lett celebrate, forget all your sorrows
(forget all your sorrows, forget all your sorrows...)This is just a perfect day,
Were living like theres no tomorrow
This is just a perfect day,
Lett celebrate, forget all your sorrowsI was dreaming bout tonight
My baby by my side
The features of fiesta...in my ride
Were gonna get it started
Them hands up in the sky
This day is just too perfect
Dont get wasted, get highThis is just a perfect day,
Were living like theres no tomorrow
This is just a perfect day,
Lett celebrate, forget all your sorrows
This is just a perfect day,
This is just a perfect day
Were living like theres no tomorrow
This is just a perfect day,
Lett celebrate, forget all your sorrows.
