This Is Us

The Jupiter Tide

Wings melt away, Iâ€™m fine
I am triumphant this time
Forcing my hand, disregarding where I might land
Synthetic forest falls, misleading mystic calls
Destined to wait, until itâ€™s too lateâ€¦

I know itâ€™s hard right now
Weâ€™ll make it through somehow
We always do, and I know you
The tears are is your eyes, canâ€™t give a reason why
I cannot make this go away
The skies keep falling, changing everythingâ€¦

You keep saying, â€˜Letâ€™s rewind, do things differently this timeâ€™
But this is us-
Burning bridges as we go, building moments as we grow-
This is us

The fear is in your eyes, canâ€™t give a reason why
I cannot make this all just go away
Your tears keep falling, and I canâ€™t change a thing

You keep saying, â€˜Letâ€™s rewind, do things differently this timeâ€™
But this is us-
Burning bridges as we go, building moments as we grow-
This is us

You keep saying, â€˜Letâ€™s rewind, do things differently this timeâ€™
But this is us-
Burning bridges as we go, building moments as we grow-
This is us

...so open your eyes...
