

# Pogo

## Koo Koo Kanga Roo

Yeah, pogo  
Theres something in the air  
Theres something in the air  
Theres something in the airNow, where has it been?  
I mean, the good old wild days  
Became a bit too lame  
Just take a look at my placeIts such a mess  
But I'll be out of this space as soon as you tell me  
Where the night is  
You have to set upBring it on, forwardYeah, pogo  
Theres something in the air, pogo  
Theres something in the air, pogo  
Theres something in the airIts been quite of a while since I could experience your brightness  
Now, youve got a brighter smile and I think I'm going to like it  
Talking bout the better things, you know how to maximize  
Everything around you will become super sizedYou have to set up  
Away from what matters  
And get it prepared  
ForwardYeah, pogo  
Theres something in the air, pogo  
Theres something in the air, pogo  
Theres something in the airYeah, pogo  
Theres something in the air, pogo  
Cause I've been dreaming we could be the fire for this night  
Cant stopYou have to set up  
We could get so wasted if you would have come  
(Bring it on)  
We could get so wasted if you would have come  
(Forward)We could get so wasted if you would have come  
(Can't stop)  
We could get so wasted if you would have come  
(You have to set up)We could get so wasted if you would have come  
(Bring it on)  
We could get so wasted if you would have come  
(Forward)We could get so wasted if you would have come  
(Can't stop)  
We could get so wasted if you would have come  
(You have to set up)
