

# Circles

## Passenger

Pacing around in circles  
Talking to himself  
He could see the beauty there  
Talking to another one

She came to see our city  
She came in the dead of the night  
I tried to introduce him  
But she got scared and ran away

They came, thousands from far away  
They came a sunny day  
I tried to introduce him  
Now I'm talking to myself  
I tried to introduce him  
Now I am the one talking to myself
