

# Roller

## Uriah Heep

Oh where is she woman  
She's only here for the sun  
It's now you'll discover  
She's only here for the fun  
And who will move over  
Sweet talker choosin' her side  
And it's then, it's all over  
She' just along for the rideShe' s a roller  
She's just a roller  
Bet she'll roll her life awayOne town is just like another  
One man will just never do  
Don't turn around  
When she calls out your name  
She's gonna break you in twoBut she's a roller  
She's just a roller  
Rolling time come todayOne town is just like another  
One man will just never, never do  
Don't turn around  
When she calls out your name  
She's gonna snap you in two
