

# Confide In Me

## Manhattan Transfer

After the crash when you're  
strolling thru the ruins alone  
Pick up the phone  
When you feel twisted, honey,  
I'm listed  
Confide in me, confide in meGot no degree  
But I'm strong on tears and  
careless hearts, brave new starts  
You know I'm a big fan and  
I got a program  
If you'll just confide in meWe'll sit in my kitchen babe,  
Drink lotsa coffee babe  
You'll begin just where you left off  
And you can tell how high  
you flew and how you fell  
And I'll make your landing softMy place is cute  
And it's kind of comfortable  
in a storm, safe and warm  
We'll throw open the nighttime  
and let in the sunshine  
If you'll just confide in me,  
just confide in me
