Let There Be Light

Stryper

On the first day He made Heaven, then earth and said let there be light
Then He separated the water from the sky
The ground becomes land, and waters became the seas, He was pleased
Trees would take root, and live to bear fruitLet There Be Light - Day and a Night
Stars shining bright - Let There Be Light!And then upon the fifth day, fish would swim and birds could fly
Land bearing creatures, all according to their kind
And so it shall be, a man and a woman after Thee, and He was pleased
Soon they'll increase and rule every beastLet There Be Light - Day and a Night
Stars shining bright - Let There Be Light!Let There Be Light - Day and a Night
Stars shining bright - Let There Be Light!
