

# Casualty

## Marty Casey & Lovehammers

Nobody's safe 'round here, no more  
Drag this lonely boat from the shore  
Cut the ropes that bind me  
To save the ones behind me  
Nobody's safe 'round here, no moreNo time to wait and see  
I live this life for meRise and fall, climb the walls  
Won't stop till I have it all  
Persistence, resistance  
One man can make a differenceThe battle's inside of me  
The fight's begun but not yet won  
And I won't become one more casualty  
Oh, one more casualtyThe need to find my destiny  
Drop my anchors, set me free  
You don't know how it feels  
'Till your hand's on the wheel  
Drop my anchor, set me freeRise and fall, climb the walls  
Won't stop till I have it all  
Persistence, resistance  
One man can make a differenceBattle's inside of me  
The fight's begun but not yet won  
And I won't become one more casualtyNobody says we're free  
We're drifting through the questions  
Swimmin' for the answersTryin' to keep my sanity  
Till I reach my destination  
And bring you here with meAnd I'll make you believe  
I have control but if I lose myself  
How can I save you?Rise and fall, climb the walls  
Won't stop till I have it all  
Persistence, resistance  
One man can make a differenceRise and fall, climb the walls  
Won't stop till I have it all  
Persistence, resistance  
One man can make a differenceRise and fall, climb the walls  
Won't stop till I have it all  
Persistence, resistance  
One man can make a differenceThe battle's inside of me  
The fight's begun but not yet won  
And I won't becomeThe fight's begun but not yet won  
And I won't become one more casualty
