

Rock You Tonight

Firehouse

We're gonna rock you Yeah, stand up get on you feet
Just throw your hands in the air
Feel the beat down in your soul
Let the rhythm go to your head
You gotta get up, you gotta make your move
You gotta give it everything that you got
Make your play, we're going all the way
Tonight we just can't stop Come on get ready
(Are you ready?)
Well, if you're ready let's turn down the lights
Come on get ready
(Are you ready?)
Oh, we're gonna get wild tonight Oh oh, we'll rock you tonight
We're gonna rock you tonight
You know it feels good
You know it feels right
So we're gonna rock you tonight Ready
(Ready)
Oh, on your mark get ready get set
Come on everybody let's go
Gonna get wet gonna make you sweat
Make you lose control
Gonna turn it on, turn it up, turn it inside out
Get the groove down in your shoes
Gonna tear this damn place down Come on get ready
(Are you ready?)
Well, if you're ready then let's turn down the lights
Come on get ready
(Are you ready?)
Oh, we're gonna get wild tonight Oh oh, we'll rock you tonight
We're gonna rock you tonight
You know it feels good
You know it feels right
So we're gonna rock you
We're gonna rock you tonight
Yeah yeah Oh oh, we'll rock you tonight
We're gonna rock you tonight
Oh oh, we'll rock you tonight
We're gonna rock you

We're gonna rock you Oh oh, we'll rock you tonight
We're gonna rock you tonight
You know it feels good
You know it feels right
So we're gonna rock you tonight Oh oh, we'll rock you tonight
(Rock you tonight)
We're gonna rock you tonight
(Rock everybody)
C'mon everybody you know it feels good
You know it feels right
We're gonna rock you
We're gonna rock you tonight
Rock you tonight
Yea, rock you tonight
