Your Love Is My Life

Billy Squier

Your love is my life--I live my life for your love
Only two can be right--yours are the arms that I'm dreamin' of
Though the powers that be may confuse me
I know in your heart you won't lose me
For once in my life my dream is alive
Never forgotten when I call out to you
Your love is my life--I live my life through your love
Always knew it could feel so right--yours are the arms that I'm dreamin' of
Though the powers that be may deceive me
I know in my heart you won't leave me

Our promise is made--our dream can come true
Crimes are forgotten when I call out to you
Though we're worlds apart, you're right by my side
The door it lies open--we're too hot to hide
For once in my life my feelin's are true
Time makes me certain--hear me call out to you
Your love is my life...
