

Force of Nature

Cortechs

It's getting kind of heavy, yeah, yeah
It's getting kind of heavy
See, I was raised in a good home with morals and all
Got my degree, made mama proud and worked real hard
Bet she never thought that I'd end up with a guy like you
Thugged-out, gold grill, hustla with a Caddy
Big dreams, dirty south, nothing like my daddy
But I love this man and I can't stop
He's like a force of nature, nature
Excuse me, but I love his dirty drawers
And I, in love with a thug and proud of it
He's like a force of nature, nature
And nothing you can say can keep me from him, no-o-o, no
There's something in the way that he looks at me, oh
He's like a thief in the night that came and stole my heart
And now I just can't breathe
But I already know that mama just would not approve
She would look at me and say, "You've got too much to lose
Baby, slow it down 'cause you don't even know this man"
But it won't happen like that 'cause mama just don't understand
That I love this man and I can't stop
He's like a force of nature, nature
Excuse me, y'all, I love his dirty drawers
And I, in love with a thug and proud of it
He's like a force of nature, nature
Keep me from him, no-o-o
I ride with him, ain't going nowhere
You can say what you want, I ain't gonna leave him
I lay with him, it feels so right
You can say that it's wrong but it won't change my mind
Thug and all, I'm with you
So tell me what you wanna do, baby, oh, oh
I believe in you and that's the truth
And I don't care what anybody thinks
'Cause I love, yeah, yeah, love this man and I can't stop
He's like a force of nature, nature
I don't know but I need you, baby whoa, yeah, yeah
In love with a thug and proud of it
He's like a force of nature, nature

Keep me from him, no-o-o
I love this man
