

# Pass Out

Chris Brown

Tu veux voler  
Au bord du dsir?  
Je sais que tu me veux  
Mais est-ce que tu mrites mon amour?Half past an hour in the club  
I was trying to cut a rug.  
I was sippin on,  
Tryina find the missing link.  
You had a mission tryina vogue  
Then I came right through the smoke,  
I was smoking hot,  
Catch my fever, lets burn up the floor.  
I need to know, how to get into you,  
Baby, I'm liking your bod.  
Oo, you got me stuck,  
Im so effin into you,  
Ill let you blow my moves.Don't breathe,  
I want to take your breath,  
Let your body feel it all night, from your battery  
It'll charge you up.  
Lets start a riot on the floor  
Do it till you pass out  
Do it till you pass out  
Do it till you pass out  
Do it till you pass outI'm up and up and it's so hard to turn me down  
Let's burn shit up cause Im your fire starter now  
I'll bring it back can you smell that?  
Now that Imma rock star, I just wanna stop your heart  
Go, go dancer on the dancefloor  
Go, go am I what you asked for?  
Imma monster, not a pretty little girl  
Eyes on me, so come follow meDon't breathe  
I want to take your breath  
Let your body feel it all night, from your battery  
It'll charge you up  
Lets start a riot on the floor  
Do it till you pass out  
Do it till you pass out  
Do it till you pass out  
Do it till you pass outI just can't say no baby girl I wanna take you down

Um no whatever, silly boy I'm tryna turn you out  
Girl give it up, you know I really want cha  
Blackin out, blackin out right now  
Oh oh oh oh oh oh oh Don't breathe  
I want to take your breath  
Let your body feel it all night, from your battery  
It'll charge you all up  
Lets start a riot on the floor  
Do it till you pass out  
Do it till you pass out  
Do it till you pass out  
Do it till you pass out
