Full Moon Madness

Moonspell

Somos memorias de lobos que rasgam a pele
Lobos que foram homens
e o tornarao a ser...
They awake for flesh
Choose pain as a path
Refuse a light
To blind you and me
Full Moon Madness
We are as one and congregate
Full Moon Madness
We rise again to procreate
Somos memorias de lobos que rasgam a pele
Lobos que foram homens e o tornarao a ser
ou talvez memorias de homens
que insistem em nao rasgar a pele
Homens que procuram ser lobos
mas que jamais o tornaro a ser...
They awake for flesh
Choose pain as a path
Refuse a light
To blind you and me
Full Moon Madness
We are as one and congregate
Full Moon Madness
We rise again to procreate to seal our fate
Irreverence was cast out from the sky
And eternity lost its sex forever
And under the same heaven they voted to emptiness
They still celebrate under a Full Moon Madness...
They awake for flesh
Choose Love as a path
Refuse a light to blind you and me
Irreverence was cast out from the sky
And eternity lost its sex forever
And under the same heaven we voted to emptiness
We still celebrate under a Full Moon Madness
