

I Love Your Smile

[Lee Ryan](#)

So many words to describe what I'm thinking
So many ways to say 'I care?
About to sing that I'm lost that I'm sinking
But I was certain to meet you there
'cause noticed
you love to smile
you smile through my heart
I know this
I love your smile
Keep smiling in all your life

God must have spent a little time on you, baby
God must have heard a moment of truth
I like to think that if God was a lady
She'd made this world in the image of you
'cause I know this
you love to smile
you smile through my heart
I know this
I love your smile
Keep smiling in all your life
