

# Annie

## Neon Indian

Annie  
Don't run away  
Where I can't find you  
The game has gone too far Talking  
A lot of talk  
Playing telephone  
Twenty city blocks Annie  
They have the dossier  
The investigation's  
Already underway And I tried Justine  
She said to give you a ring  
And I try to sleep  
But all I can hear's the beep Answering, answering machine  
Answering, answering machine  
Just your Won't you come and find me  
Annie, won't you come and find me [Radio: Hey man, this is Frank, uhh Toni just  
called me and she said that she saw Annie acting in a dirty movie.] Highway Madonna  
Evasion is her trade  
There was no other  
Now a shadow at her place With the brush you left  
I comb the alleyways  
I don't miss a beat  
The tableaux stays in place Annie  
I was closing in  
But I smeared the number  
Walking in the rain The girl down the hall  
She said to give you a call  
And I try to sleep  
But all I can hear's the beep from your Answering, answering machine  
Answering, answering machine  
Answering, answering machine  
Just your Won't you come and find me  
Annie, won't you come and find me
