Snowblinded

Kill Hannah

You're all on your own, your hands are still freezing
So shocked, just to know your heart is still beating
They say the world is a place full of wonder and hope
All these great things but you just don't feel itI just want you to know I think you're beautiful
I just need you to know how much I care
You are the air that I breatheI love all your clothes, wear black every season
And I love how you smoke, just like Marlene Dietrich
You say the world is a place full of thunderous love
For everyone but I just can't see itI just want you to know, I think you're beautiful
I just need you to know how much I care
I just wanted to say you're fucking beautiful
You are the air that I breatheI just want you to know
I just want you to know
I just want you to know
