Biting Down

Lorde

It feels better biting down
It feels better biting down
It feels better biting down
It feels better biting down
It feels better biting down
It feels better biting downSkip a hit, don't make a sound
It feels better biting downBreathed so deep I thought I'd drown
It feels better biting downListen to the beats resound
It feels better biting down
It feels better biting downIt feels better biting down
It feels better biting down
It feels better biting downSkip a hit, don't make a sound
It feels better biting downBreathed so deep I thought I'd drown
It feels better biting downListen to the beats resound
It feels better biting down
It feels better biting downThe electronics of your heart
See how fast they fall apart
It feels better biting downThe electronics of your heart
See how fast they fall apart
It feels better biting down
It feels better biting downSkip a hit, don't make a sound
It feels better biting down
