All About Me

Xscape

Traces of my lipstickDoes she know, where you go and when you leave
That you're always with me and it's all about me
Does she know, it won't be long before she's out the door
I'm in number one and it's all about meDoes she know, that when you go
That you're with me, baby
Does she know, that it won't be long
She's out the door, babyWhat, come on
