

# All About Me

## Xscape

Traces of my lipstick Does she know, where you go and when you leave  
That you're always with me and it's all about me  
Does she know, it won't be long before she's out the door  
I'm in number one and it's all about me Does she know, that when you go  
That you're with me, baby  
Does she know, that it won't be long  
She's out the door, baby What, come on
