

# Out On Me

Glenn Hughes

Can you hear the wind blow?  
Can you hear it  
Callin' your name?  
You don't wanna go slow  
You just wanna tell me  
I'm to blame  
About to lose my patience  
You just wanna push me  
To the flame  
I'm gonna build a big fence  
And I want you to know  
It's a cryin' shame  
I just want to talk to you  
But all you want to do is Take it out on me  
(Tell me how you really feel)  
Take it out on me  
(Tell me are you real)  
Take it out on me I don't want to hear you say that you're reckless  
I don't want to hear it anymore  
I pray to god to give you strength because you're faithless  
But all you wanna do  
All you wanna do  
Is take it out on me Now listen to me brother  
Can you hear my voice out in the rain  
You think about no other  
I can see your life is filled with pain  
I see you on the pages  
Of the weekly Hollywood Gazette  
But still your soul it rages  
How can you judge my life when you haven't lived yet?
