Ready Set Roll

Chase Rice

Ready
Set
Let's roll
Let's rollDamn pretty girl ya' went and done it again
Ya' gone and turned your sexy all the way up to ten
I never seen a side ride seat looking so hot
Baby you rock, hit the spot
Like a fireball shotYou got me all high head spinning around and around
I'm down if you're down to burn down this townReady, set, let's roll
Ready, set, let's ride
Get ya' little fine ass on the step
Shimmy up inside
Just slide girl by my side girl
Yeah we can run this town
I can rock your world
We can roll'em down, fog'em up
Cruise around, get stuck
Pedal to the metal 'til the sun comes up
I made a deal with the man on the moon
He's gonna put in some overtime
We got all nightReady, set, let's roll
Ready, set, let's rideReady, set, let's roll where the good ears and good times meet
Girl we can rev' it up right 'til we overheat
Just forget about the time get ya' lips on mine
Gotta kiss you get to know your smile
On your mark, get setReady, set, let's roll
Ready, set, let's ride
Get ya' little fine ass on the step
Shimmy up inside
Just slide girl by my side girl
Yeah we can run this town
I can rock your world
We can roll'em down, fog'em up
Cruise around, get stuck
Pedal to the metal 'til the sun comes up
I made a deal with the man on the moon
He's gonna put in some overtime
We got all nightReady, set, let's roll

Get ya' little fine ass on the step
Shimmy up inside
Just slide girl by my side girl
Yeah we can run this town
I can rock your world
We can roll'em down, fog'em up
Cruise around, get stuck
Pedal to the metal 'til the sun comes up
I made a deal with the man on the moon
He's gonna put in some overtime
We got all nightReady, set, let's roll
Ready, set, let's rideReady, set, let's roll
Ready, set, let's ride
