Method

Pegboy

Well, sit down and let me tell you one thing
There's a method to your madness
It's your sadness

I remember when you used to hope for
The hope there was some magic
Some magic

I can still remember when
You used to take your heart in hand
And gave it, gave it, gave it, gave it

I wish I could go back again
And trace my childhood again
To your madness, madness, madness

But, it seems so far, far away, far away
Seems so far, far away, far away
Seems so far away

Now one thing I know you took for granted
Let it slip on through when you had it
You had it

I remember when you used to hope for
The hope there was some magic
Some tragic

I can still remember when
You used to take your heart in hand
And you gave it, gave it, gave it, gave it

I wish I could go back again
And trace your childhood again
It's so saddening

But, it seems so far, far away, far away
Seems so far, far away, far away
Seems so far away

Now, one thing I know you took for granted
Let it slip on through when you had it
You had it

I remember what you used to hope for
The hope there was some magic
Some magic

I can still remember when
You used to take your heart in hand
So selfless, selfless, selfless

I wish I could go back again
And trace my childhood again
So selfless, selfless, selfless

Now, but seems so far, far away, far away
Seems so far, far away, far away
Seems so far away

But, seems so far, far away, far away
Seems so far, far away, far away
Seems so far away
