Scream And Shout

Quiet Riot

Yeah
All right
Oh yeah
Oh, come on boys
Your lights seem nothing like sparkles
You look like you're toast
Put you hands up in the air
Treat me like a host
I wonder if you're ready
But I can't hear you breathe
My nerves are not quite steady
But you will only see that
I want more
(I want more)
So give it all
(Give it all)
Scream
Scream and shout
Lose your minds
Let it out
Take me higher
Higher, higher
Scream and shout
Coats are smaller in this asylum
I can see what's on your minds
Looking for some truth
Is what you really want to find
'Cause we are pure escapists
Yes times are getting tough
We just want to rock and roll
We can't get enough
I want more
(I want more)
So give it all
(Give it all)
Scream
Scream and shout
Lose your minds
Let it out

Take me higher
Higher, higher
Scream and shout
You see that from the front row
We are shapes of things to come
You're handcuffed to your seat
And there is no place left to run
Your brains are in our power
We ponder as we feed
A healthy dose of metal
And that's all you'll ever need
I want more
(I want more)
So give it all
(Give it all)
Shout to the car
(Shout to the car)
I want it all, yeah
Scream
Scream and shout
Lose your minds
Let it out
Scream
Scream and shout
Lose your minds
Let it out
Out, out
