

# Scream And Shout

## Quiet Riot

Yeah  
All right  
Oh yeah  
Oh, come on boys  
Your lights seem nothing like sparkles  
You look like you're toast  
Put you hands up in the air  
Treat me like a host  
I wonder if you're ready  
But I can't hear you breathe  
My nerves are not quite steady  
But you will only see that  
I want more  
(I want more)  
So give it all  
(Give it all)  
Scream  
Scream and shout  
Lose your minds  
Let it out  
Take me higher  
Higher, higher  
Scream and shout  
Coats are smaller in this asylum  
I can see what's on your minds  
Looking for some truth  
Is what you really want to find  
'Cause we are pure escapists  
Yes times are getting tough  
We just want to rock and roll  
We can't get enough  
I want more  
(I want more)  
So give it all  
(Give it all)  
Scream  
Scream and shout  
Lose your minds  
Let it out

Take me higher  
Higher, higher  
Scream and shout  
You see that from the front row  
We are shapes of things to come  
You're handcuffed to your seat  
And there is no place left to run  
Your brains are in our power  
We ponder as we feed  
A healthy dose of metal  
And that's all you'll ever need  
I want more  
(I want more)  
So give it all  
(Give it all)  
Shout to the car  
(Shout to the car)  
I want it all, yeah  
Scream  
Scream and shout  
Lose your minds  
Let it out  
Scream  
Scream and shout  
Lose your minds  
Let it out  
Out, out
