

# Mars

Jay Sean

(Intro)

Girl...

Girl...(Verse)

Come, baby

Come and get all my loving

Breathe it in with me

Let it get to yo head then get to Mars

Let it get to yo head then get to Mars

I wanna watch you take it in(Chorus x2)

I'm so high

I'm wasted, I don't wanna come down

Let me take you to Mars, girl

We'll make love on a star, girl(Bridge)

I don't wanna talk

I don't wanna think

I'm up here waiting for you

I'm so high, high, high(Verse)

You taste so pure, you see something working out, baby

My eyes must be clouded, purple haze

Reach in time to touch you

With you in heave all night long

You're my fallen angel and I'm here to take you home(Chorus x2)

I'm so high

I'm wasted, I don't wanna come down

Let me take you to Mars, girl

We'll make love on a star, girl(Verse)

She's such a centerfold, you other chicks just run along

She shit on Christian Loubuittons, she wont put it on

No logos on the bag if she got in on the arm

All she talk is swag and you know she pour it on

On those cold nights fat boy had to keep her warm

Kept a paintbrush, studying The Art of War

Mr. Brainwash fucking to

my favorite song

I run with cash money but you know my money long(Chorus x2)

I'm so high

I'm wasted, I don't wanna come down

Let me take you to Mars, girl

We'll make love on a star, girl(Bridge)

I don't wanna talk  
I don't wanna think  
I'm up here waiting for you  
I'm so high, high, high
