

Seven

Megadeth

Full of greed, you sell your soul
Full of pride a heavy load
You eat yourself gluttony
Resent yourself, you envy me
Oh, everything turns into wrath
You lust yourself to death
Deep fears that drive us
They're hid beneath disguises
Judge the world within
Forgive my deadly sins
Procrastination always giving up
Something better comes to interrupt
Cast your verdict down to me
Spare me your bleeding sympathy
Only care how you appear
Clearly see, you can't see clear
Deep fears that drive us
Hid beneath disguises
Judge the world within
Forgive my deadly sins
Deep fears that drive us
Hid beneath disguises
Judge the world within
Forgive my deadly sins
Greed, gluttony, pride, envy, wrath, sloth, death, deadly seven
Seven deadly sins of mine
On every streets
And corner lie
Seven deadly sins of mine
On every streets
And corner lie
Seven deadly sins of mine
On every street
And corner lie
Seven deadly sins
On every street
And corner lie
These seven deadly sins of mine
On every street

(Street)
And corner lie
(Lie)
Seven, seven deadly sins
Seven deadly sins of mine
On every street
And corner lie
These seven deadly sins of mine
The seven, yeah
The seven deadly sins
These deadly sins of mine
Deadly sins of mine, ooh oh
